Bishop's Waltham Parish Council Investment Strategy and Policy

1. Introduction

Bishop's Waltham Parish Council acknowledges the importance of prudently investing surplus funds and reserves.

This strategy has been prepared in accordance with the Guidance on Local Government Investments ("the Guidance"), issued under section 15(1)(a) of the Local Government Act 2003, effective from 1st April 2018.

The Guidance states: a) Where a Town or Parish Council expects its investments at any time during a financial year to exceed £100,000, the Guidance should apply in relation to that year. b) Where a Town or Parish Council expects its investments at any time during a financial year to exceed £10,000 but not £100,000, it should decide on the extent, if any, to which it would be reasonable to have regard to the Guidance in relation to that year. c) Where a Town or Parish Council expects its investments at any time during a financial year not to exceed £10,000, no part of the Guidance need be treated as applying in relation to that year.

The Council expects its reserves during the 2023/24 financial year to exceed £100,000 and therefore has agreed to apply the Guidance as set out below.

2. Investment priorities

The Council's investment priorities are:

- security
- liquidity
- return

The Council will aim to achieve the optimum return on its investments commensurate with proper levels of security and liquidity.

All investments will be made in sterling and, as a minimum, surplus funds will be aggregated in an interest bearing bank account.

The Government maintains that borrowing of monies purely to invest, or to lend and make a return, is unlawful and this Council will not engage in such activity.

The Council will endeavour to avoid Investments with bodies, institutions or funds that have negative impact on the environment.

The Council will endeavour to avoid Investments with bodies, institutions or funds that support or exploit, either directly or indirectly, the inappropriate welfare and treatment of people or animal/wildlife.

The Council may from time to time produce a list of specific investments or investment sectors that it wishes to avoid. The Council will satisfy itself that funds are only invested in an ethical manner commensurate with the use of public monies.

3. Security of investments

Government guidance differentiates between specified investments and nonspecified investments.

Specified Investments

Specified investments are those offering high security and high liquidity with a maturity of no more than one year. In addition, short-term sterling investments must be with bodies/institutions with "high credit ratings".

For the prudent management of its reserves, the Council will use:

- UK banks and UK building societies;

Non-specified investments

Non-specified investments are usually for longer periods (i.e. more than one year) and with bodies that are not highly credit-rated.

No non-specified investments are included in the Investment Strategy for this Council. This will be reviewed annually.

4. Liquidity of investments

The Finance Manager will determine the maximum periods for which funds may prudently be committed so as not to compromise liquidity.

5. Long term investments

Long term investments will be defined as greater than one year. The Council will use the same criteria for assessing long term investment as identified above for specified investments.

The Council does not currently hold any long term investments.

6. Risk investment

The Parish Council's reserves are covered by the Financial Services Compensation Scheme up to the deposit limits of the scheme and must therefore be carefully managed to mitigate the risk of losses.

The Council will only invest in institutions of "high credit quality" as set out in section 3. of this strategy. Investments will be spread over different providers where appropriate to minimise risk.

The Council will monitor the risk of loss on investments by reference to credit ratings. The Council should aim for ratings equivalent to the Fitch F1 rating for short-term and long term investments. The Council will also have regard for the general economic and political environment in which institutions operate.

The investment position will be reviewed quarterly by the Finance Manager and reported to the Finance, Policy and Resources Committee as part of its regular reporting cycle.

The Council does not employ, in-house or externally, any financial advisors but will rely on information which is publicly available. This will be reviewed regularly if balances exceed £1 million.

7. Use of investment advisors

If it is agreed to employ external investment advisors, they will be contractually required to comply with this strategy.

8. Investment reports

The Finance Manager will include a report on investment activity at least annually to the Finance, Policy and Resources Committee.

9. Review and Amendment of Regulations

The Council reserves the right to make variations to the strategy at any time, subject to the approval of the Full Council. Any variations will result in an updated strategy being published.

10. Transparency

This strategy will be posted on the Council's website

11. Review

This strategy will be reviewed annually with the preparation of the end of year accounts
